WELCOME ABOARD!

Dear (new hire name goes here), we are very happy to welcome you to the team at Dynamic Horizons Limited. Blue sky thinking is part of best practices here, and so we are hopeful that with your fresh ideas and enthusiasm this will be one of our most prosperous increments of operation.

Our global village is currently undergoing an unprecedented datafication. As a Vector of Dynamic Horizons Ltd. (or one of its many highly successful affiliates) you will play a vital role in strategically shifting the paradigms of countless end-users. With that in mind let's unpack six of our core values:

- **Incentivization toward Wikiality.** The end-game is a user encodable Meat Space. The Possible must employ fuzzy logic, and remain in constant flux.
- **Habitual implementation of disruptive technologies.** Refinement in the capitalist model is derived through competition. Use of tools which introduce new value structures force the capitalist model to evolve through competition. The optimal scenario is systemic collapse through exhaustion.
- **Rampant co-opetition.** Competition is aided by co-operation. Both are aided by co-option.
- **Tactical mitigation/excitation of future shock (and awe.)** Ambiguity with regard to our place in time is paramount in maintaining psychic plasticity.
- **Ideation via divination.** Deep dives into the Deep Web. This means intentionally locating the transcendent just barely within our reach.
- **Leveraging the Long Tail to boil the ocean.** Pervasive mind-share benchmarking and constant informational awareness across all spectra.

We're big believers in eating our own dog food here at Dynamic Horizons Ltd. Agents are expected to internalize these core values, and remain vigilant for ruptures both within themselves and within the organization at large. Keep these tenets in mind and one day you may become one of our most deniable assets!

Your pal in HR
